NO BETTER WAY TO BREAK A BAD COLD

Surely Cures the Most Severe Cold and Ends Grippe Misery in Just a Few Hours.

The most effective and harmless way to cure the grippie or break a severe cold, either in the head, chest, back, stomach or limbs, is a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

You will distinctly feel the cold breaking and all grippie symptoms going after the very first dose. It promptly relieves the most miserable neuralgia pains, headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, soreness, stiffness and rheumatic aching.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or grippie misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

After three years' research, we have conclusively demonstrated that quinine is not effective in the treatment of colds or grippie.

CONVICTED OF FORGERY.

Henry A. Lorette of Rutland Was Then Placed on Probation.

Rutland, Jan. 3.—Henry A. Lorette of Terrill street pleaded guilty to forgery before Judge F. G. Swinnerton in city court yesterday, as result of a fraudulent means he used Saturday night to obtain money from S. Fineberg, a Grove street shoe dealer. Lorette succeeded in getting a bank check on the Killington bank, made it out to "Harry A. Lynch," signed the name of J. H. Freuler & Son, endorsed the name of "Lynch" on the back, and Mr. Fineberg cashed the check, the amount of which was \$25. Lorette offered the fraudulent paper in paying for a pair of \$3.45 shoes, and he got the shoes and \$21.35 in change.

Judge Swinnerton imposed upon Lorette a sentence of not less than two nor more than four years in the house of correction and then, because of the respondent's youth and the fact that the money was returned to Mr. Fineberg, suspended sentence and placed the young man under the care of the probation officer.

MONTPELIER.

Jumped from Train at Middlesex, Dislocated Hip Joint, Now in Hospital.

Leonard Sanford, aged 19 years, who gave his residence as Chateaugay, N. Y., jumped from a freight train at Egan's mills, Middlesex, yesterday and has a bad cut on his head, as well as a dislocated hip joint. He was brought to Heaton hospital and will probably remain there several weeks. The injury to his hip is a peculiar one and may result in permanent stiffness of the joint. Why he jumped from the moving train is a mystery. He boarded it at White River Junction and said he was on his way to Chateaugay. After jumping from the train, he lay beside the track for some time, until a main line freight came along, picked him up and brought him to the hospital. He was formerly employed as a brakeman on the Central Vermont, but had not been for the past two months.

T. E. Callahan took possession of the Columbian granite shed to-day, and the deed was passed. The shed had been closed for a week, but reopened for work this morning.

The Y. M. C. A. kept open house yesterday, and there were many who took advantage of the opportunity, the rooms being filled all through the day and evening. Light refreshments were served, indoor sports were enjoyed, a graphophone concert was held, and in the evening an informal "sing" was conducted by Fred A. Korgan.

The annual business meeting of the Baptist church took place yesterday, and the following officers were elected for the year: Deacons, C. C. Holmes, George Goodwin; trustees, George Goodwin, Fred Thayer, Ralph Paine, C. C. Holmes, Adelbert Carr, Edmund Chase; Sunday school superintendent, C. C. Holmes; secretary and treasurer, Mrs. A. E. Carr; ushers, Raymond Holmes, Fred Thayer, John Crosssett and Ernest Kimball.

Over 2,000 people attended the horse racing yesterday afternoon on the river. On account of the short track was not as good as had been expected, and the fastest heat was the fourth in the 3:00 class, which was won by Charles Leno's bay gelding Motion, in 44 seconds flat, taking the \$10 in gold offered as a prize for the fastest heat of the day. F. G. Vinton's Frank Bogash, Jr., won in the 3:00 class; G. W. Chandler's Lizzie M. the 2:22 class and Lewis Lord's Max S. the 2:17 class. In the gentlemen's drivers' class, the prizes were awarded as follows: First J. M. Boutwell, second R. M. Donahue of Fairlee and third to M. Graham of Calais. Mr. Boutwell refused to accept a prize for his horse, at the same time appreciating the award, so the first prize, a \$10 blanket, went to Mr. Donahue, the \$5 blanket to Mr. Graham and the third prize to A. O. Bailey of this city. There was but one accident during the races. G. W. Chandler's Lizzie M. fell soon after the race started, but recovered and finally won the race. The crowd was so enthusiastic over the sport that there is talk of having a farmer's race next.

GRAND STAND BURNED.

Loss by Fire at Dartmouth's Alumni Athletic Oval.

Hanover, Jan. 3.—The grand stand at the Alumni Athletic oval was destroyed by fire about 10 o'clock Sunday night. The blaze started in one of the dressing rooms and when discovered was beyond control.

The stand cost about \$4,500 and was partially insured.

When rebuilt it will be located in another part of the field as the arrangement of the oval is to be changed throughout in order to make better connections with the new gymnasium building.

Magazine Review.

Photo-Era for January.

The high typographical and pictorial standard set by Photo-Era Magazine bids fair to be well maintained for some time to come. The January number fully justifies this prediction, for it is a fine example of the printer's art and is filled, as usual, with pictures of remarkable beauty.

The chief pictorial feature, this month, is a series of eighteen half-tones from magnificent photographs taken by William H. Phillips, the well-known photographic pictorialist of East Liverpool, Ohio, who also furnishes a descriptive article of his recent camera-tour through the Iberian peninsula. There is also a practical article on "Speed Photography in Winter," by C. H. Claudy. Mr. Herbert Rusgen describes and illustrates with his camera the rescue of the America in mid-ocean by the S. S. Trent. W. E. Bertling describes the great photographic exhibition in the Albright art gallery at Buffalo. The usual Round Robin guild contest is illustrated with very beautiful pictures, and all the illustrations are accompanied by full information how they were taken.

The monthly insert is an exquisitely beautiful plate on special art paper in green tint, of a picture entitled "Morning Mist," by William H. Kutz, the well-known camera-artist of Buffalo, and now the official photographer of the National Arts Publishing company of Boston. The entire issue appeals strongly to every camera-user and art-loving person.

Copies, 15 cents each, may be had from any photographic dealer or direct from the publisher, postpaid.

Help Your Public Library.

"Here are a few suggestions," says Alys Gordon in Woman's Home Companion for January. "You have a quantity of old magazines, some rainy afternoon have a clipping bee, get the children to cut out the pictures, leaving the name, another day mount them on heavy paper of a uniform size and give them to the library or loan to the schools."

"Post cards are also most valuable and have filled many a gap; think of the library, if you have any of interest."

"If you can tell stories to children, offer your services to the librarian; that will create a new interest."

"It is the same way if you have any special collections, such as etchings, prints, photograph, book-plates, china, or old fashion-plates which are now stored away. Offer to loan them to the library and be there one or two afternoons to explain them to the casual passer-by or to persons interested. If you have a garden or a greenhouse, remember the library, for nothing adds so much to the friendliness of the place as flowers."

"If you haven't thought of the matter before, remember it is your library, and the more you use it the greater chance it will have to prove its usefulness and importance to the general welfare and uplift of the community."
